Singing in different trills but also in the works of great writers, spring is the time when we start to believe again in miracles, it is the season of the rebirth of nature, the season of hope and pure feelings, full of love, beautiful for the whole nature, but also for our children . As swallow pride enjoys finding the spring nest, as the buds of the trees open in the fading of the gentle rays of the sun, we want our children's souls to flourish, develop nicely and sensitively not only in the spring or especially in the spring, when all we are overwhelmed by the whole of nature, the parent's nest and the dear Icon, mother. Teach children to love nature, be beautiful, be with the family, be better and cleaner. Spring is the season of purity that gives us smiles, beauty, smell, warmth, color, love, and all of this we try to receive and give them through the young shoots through the buds called children. Spring is the mist that brings us into every heartbeat.

Noaptea se apropia cu repeziciune şi într-adevăr nu se mai putea vedea calea prin pădure ca înainte. Fetiţa avu o mare milă şi-i dădu toate lemnele pe care le adunase, văzând că era şi mai sărac decât ea.
Acum ea îşi dorea să se întoarcă înapoi în pădure să strângă din nou surcele pentru foc. O cuprindea frigul nopţii şi al somni, dar inima ei mare era încălzită de o mare bucurie că a putut ajuta pe oamenii sărmani cu care s-a întâlnit în drumul ei.
Dar dintr-o dată, în locul bătrânului apăru o puternică şi minunată lumină. Lumina o înconjura acoperind tot locul şi un înger mare apăru în faţa ei şi-i spuse: „Unde crezi că mergi fără răsplata bineîui pe care l-ai făcut? Pentru că eşti bună şi milostivă vei primi un dar."
Căldura îi cuprinse trupul firav, iar din cer începu să cadă o ploaie strălucitoare de diamante şi felurite pietre mari şi scumpe pe pământ.
Fetiţa începu să le adune de pe jos şi le puse în poala ei. Însă când îşi ridica privirea spre înger ca să-i mulţumească, acesta nu mai era acolo, ci dispăruse. Rânase cu comoara în poala rochiţei sale. Fericită, ea se îndreptă cu paşi repezi spre căsuţa bunicii sale şi cu bogăţiile primite, amândouă au trăit cu mult mai bine toată viaţa lor.
Acum puteau să-şi cumpere tot ce doreau. Nici nu mai erau sărace ci bogate, şi puteau s-ajute pe cei mai săraci decât ele.
